

TLC

Linea

MODULAR STAIRS

GENERAL INFORMATION

■ **Linea** is one of the TLC Group products from the newly developed branch of modular stairs. The basic system elements consist of landings and stairs with industrial railings. Wide range of possible variants allow for easy adjustment of the product to clients' needs.

It is an innovative solution that differs from usually offered industrial stairs manufactured by TLC. **Linea** allows to skip the time- and money-consuming process of preparing individual technical documentation for bespoke

LINEA ADVANTAGES:

- Low price of the project realisation
- Time-saving - easy assembly basing on screw connectors only
- High quality realisation - resistant to external factors
- Safety and stability of the steps
- Short realisation time

Screw connections

Internal stairs
Zn

External stairs
Zn + RAL 7040

Modular construction

Max workload
3kN/m²

Manufactured according to
EN ISO 14122-3
standard

ASSEMBLY VARIANTS

LINEA modular stairs system provides for upper landing assembly in 6 configurations.

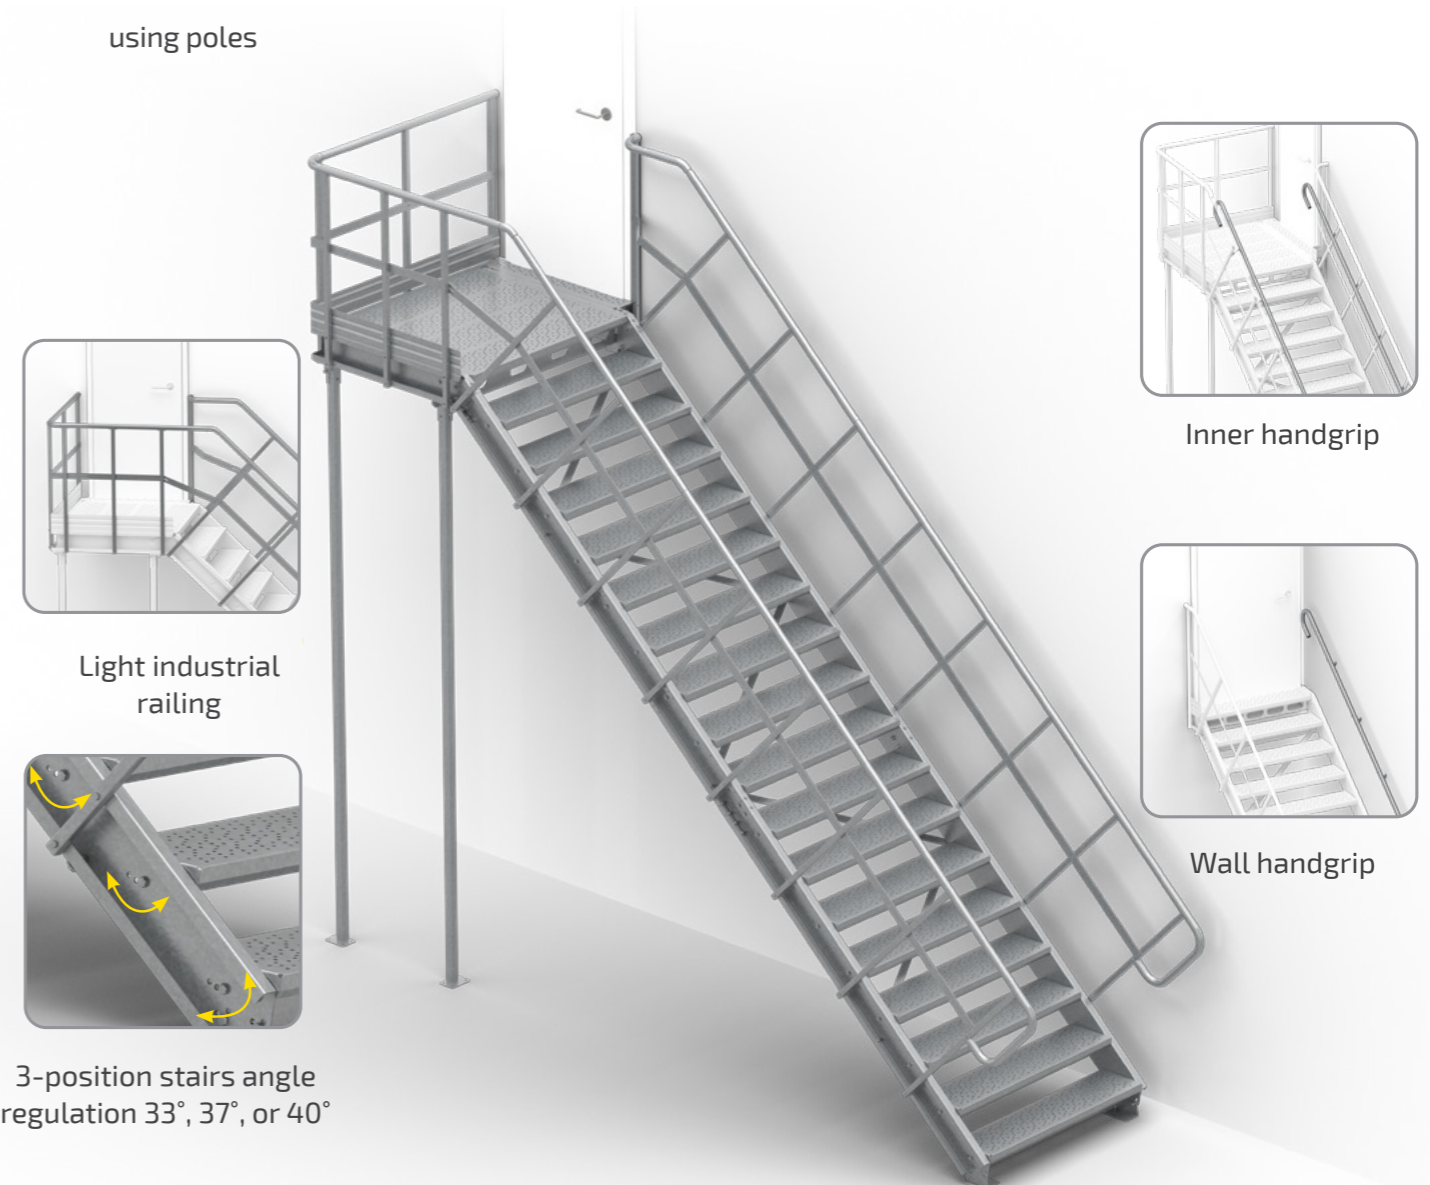

For variants P, BP there is a possibility to install one-sided railing.

LINEA KEY FEATURES

- 3-position step angle regulation: 33, 37, 40°
- Range from 2 to 18 steps (329-3583 mm)
- 5 flight widths: 800, 900, 1000, 1100, 1200mm
- Two assembly options for side exit landing: using supports (console brackets) anchored to the wall; using poles

Inner handgrip

Wall handgrip

Light industrial railing

3-position stairs angle regulation 33°, 37°, or 40°

Available assembly options:

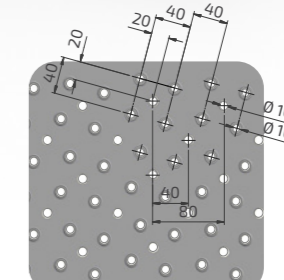

Support poles

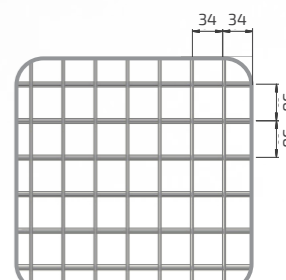

Support brackets

Available step fillings:

Profiled grating

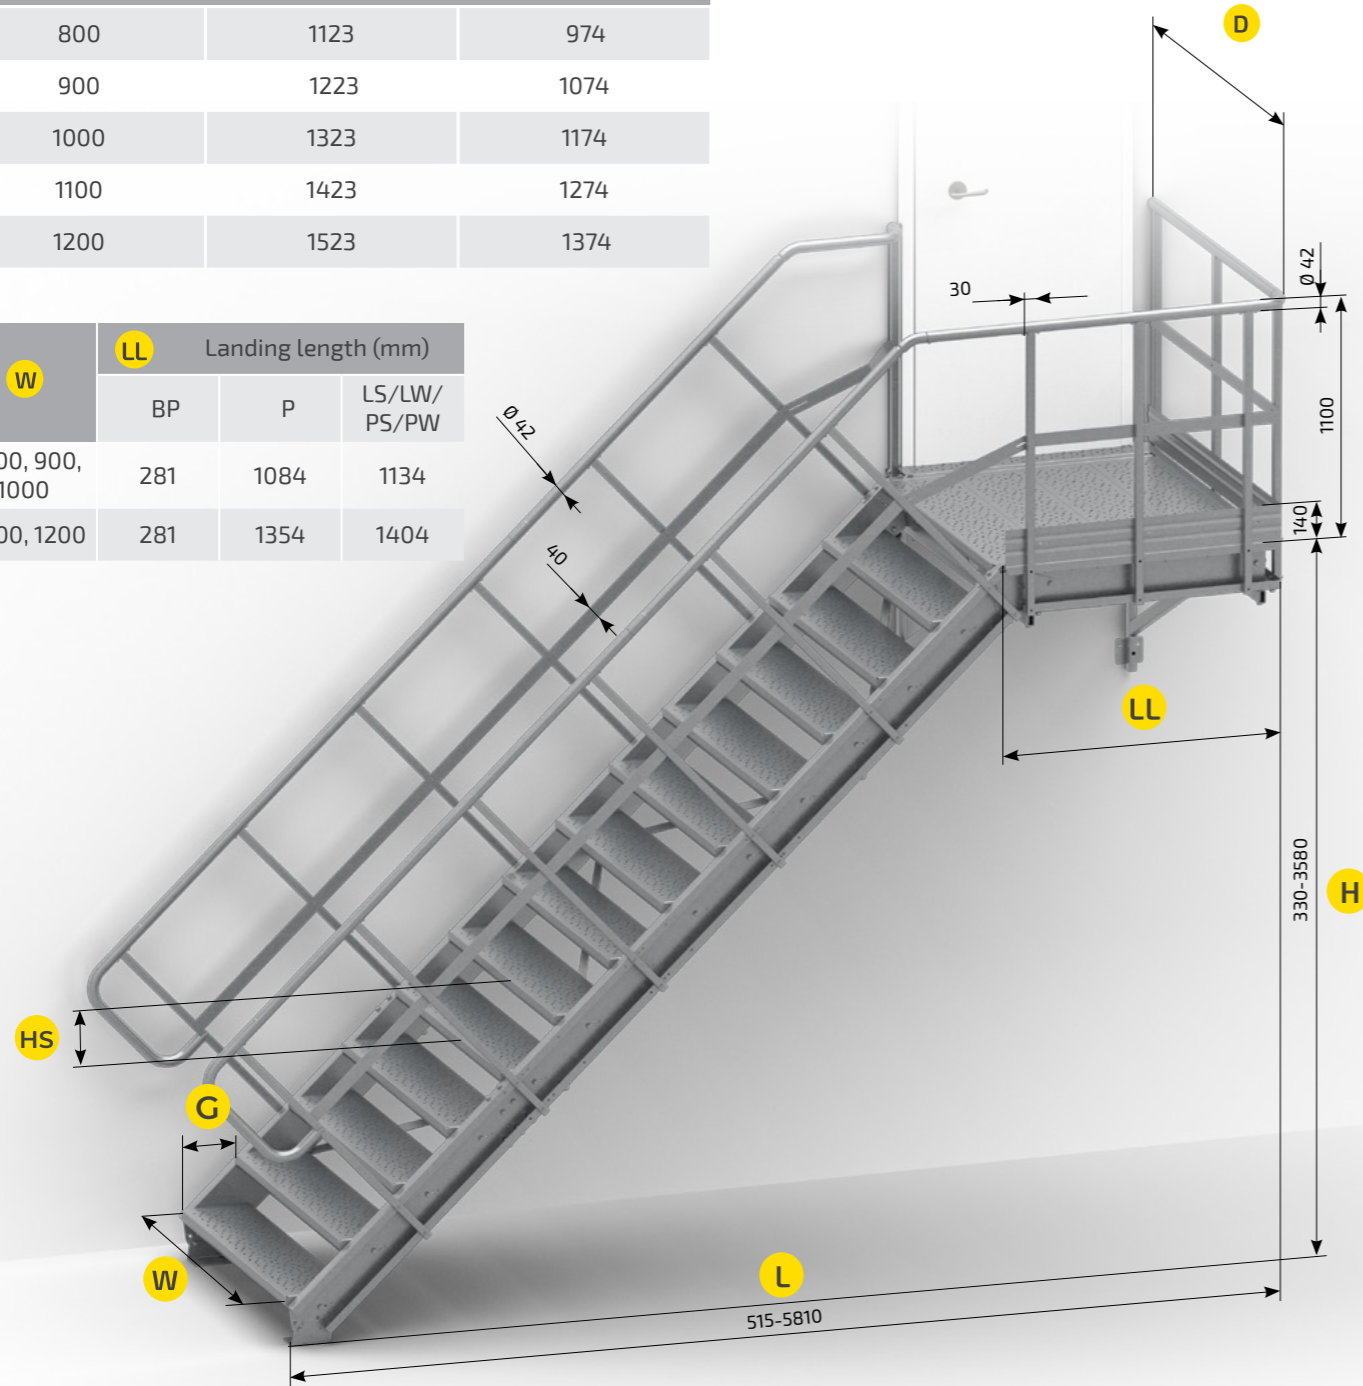

Welded grating

LINEA TECHNICAL SPECIFICATION

⚠ To ensure proper placement and use of the stairs, they should be assembled on concrete, levelled surface.

W Usable width (mm)	D Total width LS, LW, PS, PW	D Total width P, BP
800	1123	974
900	1223	1074
1000	1323	1174
1100	1423	1274
1200	1523	1374

W	LL Landing length (mm)		
	BP	P	LS/LW/PS/PW
800, 900, 1000	281	1084	1134
1100, 1200	281	1354	1404

Max workload
3kN/m²

Manufactured according to EN ISO 14122-3 standard

Material: steel S355 MC / S235 JR

Internal stairs ZN

External stairs ZN + RAL 7040

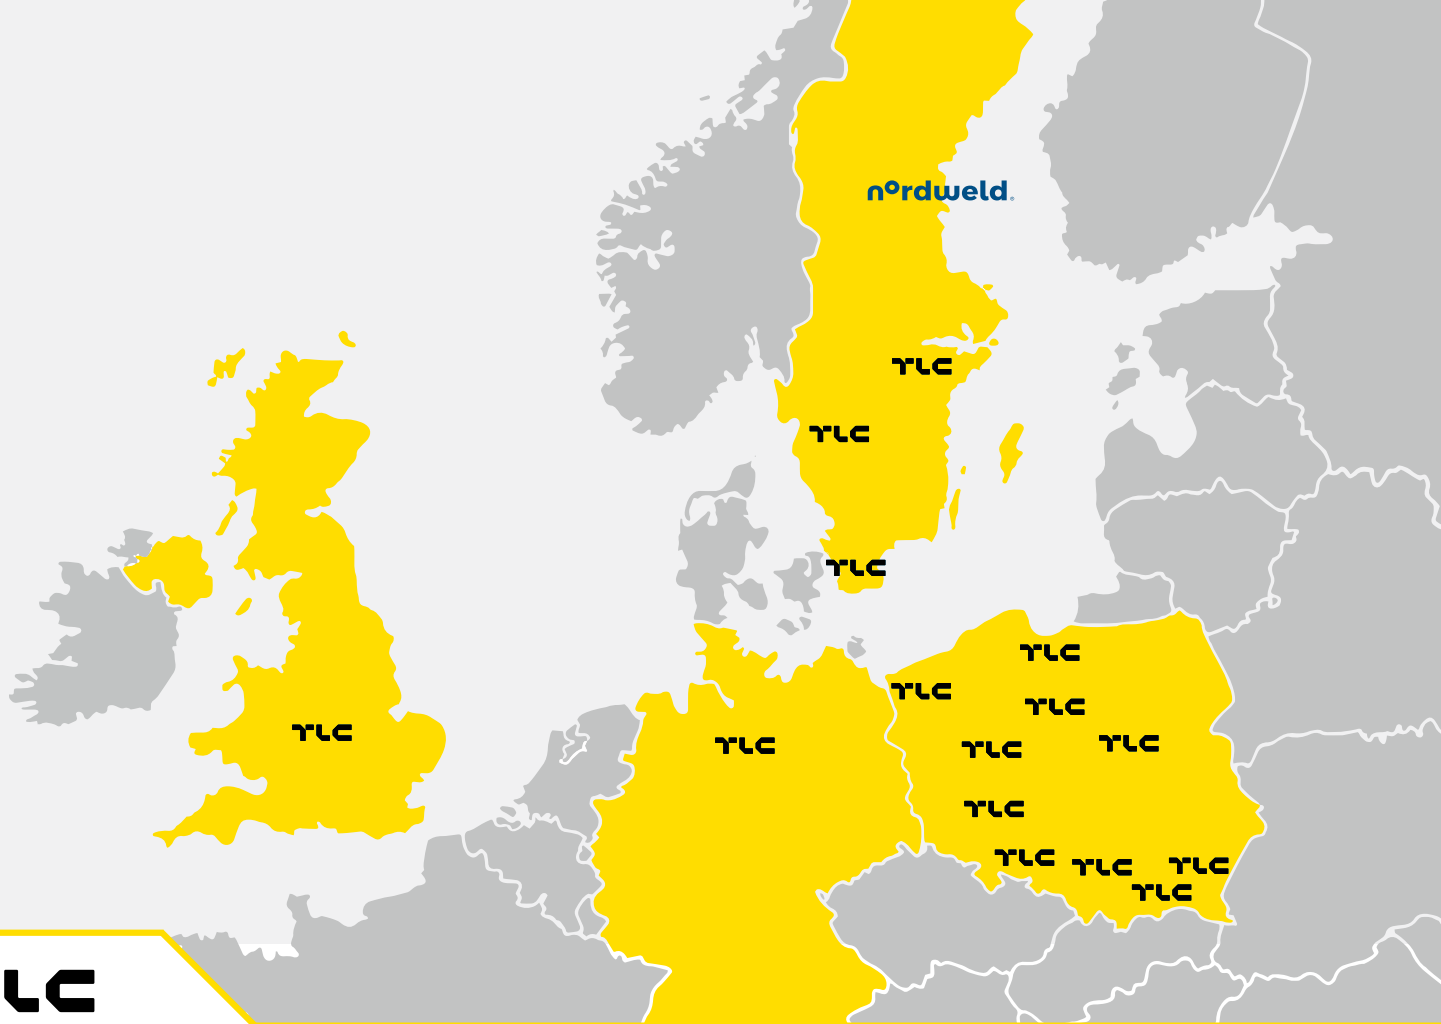

CHOOSING LENGTH AND POSITION

- The table below presents height and length of the stairs depending on the number of steps and landing variant.
- 1) Choose the type of stairs from page 4. (P, BP, LS, LW, PS, PW).
- 2) Estimate the height of stairs you need, and then find the value in the column H.
- 3) Check the value in the column L that corresponds to the value from column H that you have chosen before. The L value is the length of the flight of stairs – check if it fits your area.

Number of steps	TYPE 33								TYPE 37								TYPE 40										
	G = 260 mm				HS = 171 mm				G = 250 mm				HS = 185,5 mm				G = 238 mm				HS = 200 mm						
	Variant	BP	P	LS/PS	LW/PW	Variant	BP	P	LS/PS	LW/PW	Variant	BP	P	LS/PS	LW/PW	Variant	BP	P	LS/PS	LW/PW
